

888LM

MyQ® CONTROL PANEL

Seamless Control. Seamless Integration.

Gone are the days of wondering if you put the door down or worrying over the kids forgetting their keys.

Now, any LiftMaster® garage door opener manufactured since 1998 can be controlled with your smartphone, tablet or computer thanks to the 888LM MyQ® Control Panel (when paired with 828LM LiftMaster® Internet Gateway). MyQ technology enables you to manage, monitor and control everything from your garage door opener to lights and beyond—anytime, and from anywhere.

Performance Features

- Compatible with other MyQ accessories providing freedom and control.
- The Timer-to-Close feature automatically closes the garage door after 1, 5 or 10 minutes.
- The Motion Detecting feature turns opener lights on automatically when you enter the garage, then turns them off.
- Enables easy programming for Remote Controls, Keyless Entry and MyQ accessories.

How It Works

MyQ Control Panel with LiftMaster® Internet Gateway

Smartphone, Tablet or Computer

Control Garage Doors and Lights

Control Your Garage Door and House Lights from Anywhere with LiftMaster® MyQ Technology

Forget to close your garage door?

Need to let in the service repair man?

On vacation

From the office

At LiftMaster®, safety is a major part of our mission.

It's our commitment to you and, quite simply, the way we produce products every day. Our LiftMaster® products are designed to move the largest door in your home, safely, securely and by always putting safety first.
